To
The Minister for Local Self Government,
Government of Mysore,
Bangalore

The humble petition of Hansraj Lakaji son of Lakaji, Kesarimal son of Jagarupaji, Devichand son of Gamnaji, Sumnilal son of Vajangi, cloth merchants, residents of Tumkur town, also on behalf of their community members, Tumkur Town, for sympathetic consideration and favourable orders -

Respected sir,

We are a minority community who have settled in Tumkur Town and we have made it our home since more than fifty years and have acquired permanent interests here and have become permanent citizens of Tumkur and subjects of the benign Government of His Highness the Maharaja of Mysore We own immoveable property here of over a lakh of rupees and our business involves an average turn over of over 4-5 lakhs of rupees and on annual average we have been paying about Rs 4000/- to the Municipality by way of Octroi duty and other taxes

Our community has been living on perfectly harmonious terms with every other community in the town and is trying its best to keep in touch with the progressive measures brought into operation in Mysore State by the Government in every field of activity

Owing to the community being in a minority, in spite of the eligibility allowed by law, it has not been possible for any member of the community to get into any self-governing local bodies and hence at no time has it been possible for any one of the community to serve either the particular interests of the small community or part take in the service of the general interests through elections The choice of the benign Government in making nominations has not till now fallen even once upon any member of this community and hence we have not had the good fortune in sharing the opportunity of serving public interests which the progressive Government of Mysore has placed within the reach of so many minor communities Thus we have had no representation in any of the local bodies and we have had no opportunity of doing public service in any sphere

There is, we beg to say, no dearth of persons qualified to fill such places and work in the interests of the public There is we beg to assure, keen anxiety among us to serve public interests and also, within the limitations circumscribing us, show our munificence and love of service in the public cause, if opportunities are allowed us

It is also we beg to believe, the intention of the Government to afford opportunities for every

every minor community living in and subjects of the State to keep in touch and educate themselves in self governing institutions and we beg to state that particular communities or particular individuals are enjoying the opportunity of serving the public cause in Municipal Councils here repeatedly

There are also particular disadvantages which this community is suffering through neglect which if we have a representation we could remedy without prejudice to the interests of others

We humbly pray that the Government be pleased to make the choice for nomination in the Tumkur Town Municipal Council may fall upon some member of our community and we would beg to suggest that one Mr Dharmachand, cloth merchant merchant is a desirable and qualified person should the Government be pleased to select one among us for nomination and we further beg to state that such a choice would not really be prejudicial to the interests of any body else

And your petitioners as in duty bound shall ever pray

Respected Sir,

The humble petition of S J Dharamchand
Cloth Merchant, T u m k u r

I belong to Jain community and this community is in a very small minority in Tumkur and no member of the community can hope to get into any local self Governing institutuions through elections

I most humbly beg to submit that in this town at no time has the choice of nomination by Government to any local body fallen to the share of this community

I beg to humbly assure you, Sir, that there is keen desire and anxiety among our community to be in touch with the progressive measures brought about by the Government and edify ourselfes with regard to the working of self governing institutions and render as much service to the public and the Government as we can but unfortunately we have not had any opportunity and it is not likely we can get any, as we are in a minority and cannot hope to get elected through want of opportunity and we lag behind and become useless limb of the Society

We have become permanent citizens of Tumkur and all our - interest is centered here only as we have made this place our home by acquiring permanent interests here We have complete confidence that the Government of Mysore neglects no minority community and ours cannot be an exception to that

I most humbly pray that at least this time I or some other member of my community be nominated to the Tumkur Town Municipal Council
